## JOHNSON'S® Melt Away Stress Body Care Line Clinically Shown to Reduce Stress

Unlike other products on the market, the relaxation properties in JOHNSON'S® Melt Away Stress line have been clinically studied and shown to:

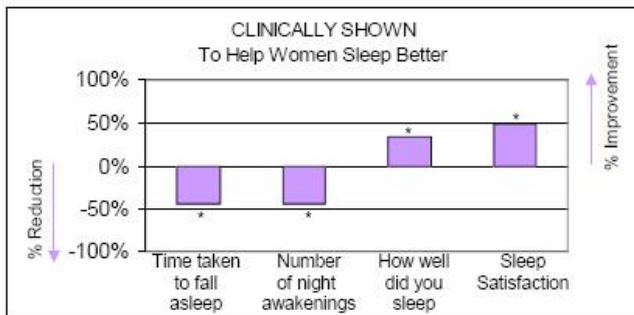

- Reduce tension by 50 percent
- Increase quality of sleep by 30 percent

All products in the Melt Away Stress collection contain the proprietary AROMASOOTHE™ fragrance blend, which contains natural ingredients such as chamomile and hints of lavender. JOHNSON'S® Advanced Technology research group partnered with a third party expert to develop the AROMASOOTHE™ fragrance, a blend of essences shown to calm to melt away daily stress and tension.
